SPECIAL OFFER FOR MASSED PLANTINGS

Of the varieties below, for every 10 ordered, we give you **2 more FREE!**

BRUNDRETT'S GUIDE TO VARIETIES THAT SUIT SPECIAL GROWING SITUATIONS OR PURPOSES.

Ground cover and semi-prostrate, for banks and terraced walls. Nozomi, Ferdy, Bonica, Sea Foam, The Fairy.

Patio Roses, low narrow borders, small groups and foreground plantings. China Doll, Cocka Doo, Marlena, Pinkie, Regensberg, The Fairy.

Hedgings, tall types for wind breaks or privacy. Chosen for profusion of bloom and growth.

Approximately waist high. Apricot Nectar, Bella Rosa, Bobby Dazzler, Bonica, Cecile Brunner, Ferdy, Friesia, Iceberg, Lovely Louise, Nana Mouskouri, Paul Shirville.

Approximately head high. Alexander, Elina, La Marseillaise, Precious Platinum, Summer Fragrance, Queen Elizabeth, Scarlet Queen Elizabeth, Shady Lady, Sylvia, Zonta.

KEY

For many years the Hybrid Tea (large flowered) roses were listed separately from the Floribunda (small flowered) sorts.
However hybridists have been crossing the two types together giving us many excellent varieties with medium-sized blooms that are difficult to classify and often referred to as H.T. type Floribundas.
In the following combined list of Bush Roses we use these abbreviations:
H.T. = Hybrid Tea (large flowered):
FLORI = Floribunda (small flowered):
H.T. FLORI = Hybrid Tea Type Floribunda (medium-size flowers):
Intenational code name and raisers appear in bracketed capital and lower case. Example:

GOLDEN FRIENDSHIP H.T. (HARTELLODY, HARKNESS, U.K.)

BACKGROUND BLUE. Indicates a variety new to our catalogue, but not new to Australia.

BACKGROUND GREEN. Indicates a variety that has some unique or particularly useful characteristics that we would not like you to pass by.

Normally Bush Roses and Standard Roses should be planted no closer than 76-91 cm apart in the row. Allow say 1.3m minimum between rows in a bed for working space.
FLORIBUNDAS are especially adapted to be used for low hedges and for bedding purposes. They have great freedom of flowering. Where it is desired to keep them reasonably low they should be planted only 61 cm (2 feet) apart, and hard pruned each winter, leaving nothing longer than 15-23cm (6-9 inches) from the union. Where Floribundas are required to make large plants they can be planted 76-91cm apart, pruned normally as for the Hybrid Tea Bush Roses.

INTRODUCTION

To Rose lovers Australia-wide - welcome to our 98th annual catalogue.
Our catalogue brings you rose varieties selected with generations of experience, including varieties popular in past decades (see Old Favourites) which are now in all probability not available elsewhere. Also each year I choose varieties to make their Australian debut (see below), these varieties from renowned hybridists have undergone trial at our nursery for several years and are available to you with my complete confidence. This year in addition to Roses and Lilacs we bring you a range of Paeony Roses although not in the Rosacea family we have for years had requests to supply these beauteous flowering plants. In keeping with our established practice, we supply a cultural information sheet attached to all orders despatched or called for.
This sheet will this year include information on Paeony Roses.

Now, for a matter of great importance, turn to Page 18.

1991 NEW RELEASE VARIETIES

1991 ROSE OF THE YEAR - REMEMBER ME H.T. (Cocdestin. Cocker, Scotland).

From the first encounter Remember Me will indeed be remembered by all. A confection of colours that is truly a delight having shadings of burnt orange that turn to blends of amber beige and brown. All this on a bush of excellent vigour and with some fragrance (just to put icing on the confection).
Plant Variety Rights Applied For.

GOLDEN FRIENDSHIP H.T. (Hartellody. Harkness, U.K.).

Named for Beta Sigma Phi - a ladies friendship group. The rich golden amber inner petals, graduate to an ivory outer the reverse side of which is flushed with the inner colour. Although there are only 26 petals, the bloom has a good well formed centre. Golden Friendship is bound to be most popular with the ladies for interior decorating and the delicate perfume will be a welcome bonus. An abundance of flowers are produced on a moderatly vigorous bush that is always eager to volunteer new growth. **Plant Variety Rights Applied For.**

QUAKER STAR FLORI. (Dicperhaps. Dickson, Ireland).

By appearance the bloom reminds me of Scherzo, which we no longer grow. It has a bicolour effect, pinkish red with an off white reverse that is flushed with the petals topside colourings. Habit of growth is erect and flowering is particarly profuse in trusses and singly. I have noted that the very thinest of stems are still quite stiff. **Plant Variety Rights Applied For.**

RED FAN H.T. (Keisei, Japan).

A deep luminous vermilion red. The full blown blooms are particularly stunning due to their size and depth of colour. The plant is quite heavily wooded and robust. Hard to beat for colour impact.

SUMMER FRAGRANCE H.T. (Tanfudermos. Tantau, Germany).

This new red is not only particularly fragrant, but vigorous having good long stems topped by dark red buds that open to a brighter red, retaining this intensity of colour almost to petal fall. This being a rare attribute in the red varieties presently available. Not just a rose for the enthusiast, Summer Fragrance will give on going satisfaction in anyones garden. **Plant Variety Rights Applied For.**

PATIO ROSES

This is a recent classification for varieties which have a particularly low, compact, habit of growth of up to 50cm, they differ from miniatures in that the flowers are larger, so too is the foliage. This category will see a gradual increase in coming years as some breeders are giving particular attention to these characteristics.

SEND YOUR FRIENDS A GIFT OF ROSES WITH A

GIFT VOUCHER

FROM THE ROSE PEOPLE, FOR CHRISTMAS, ANNIVERSARIES, WEDDINGS, BIRTHDAYS etc.

Give your name and address and the name and address to whom the voucher and catalogue are to be sent. Include the greeting to be enclosed. Minimum value of voucher to be $ 30.00 For freight and packing add 0.20c in the dollar to nominated value of voucher. If the value of the plants chosen is less than the nominated value of voucher we will include sundry items such as cut flower preservative to balance value. This can also apply to container plants for the Melbourne Metropolitan area only (please phone before remitting).

SUNDRIES

As a service to fellow rose-lovers who frequently have difficulty in obtaining locally the "aids for growing better roses" that we use and recommend, we can supply these items.

STAKES for 152cm (5ft) Weeping Standard 38cm (2 inch) galvanized pipe.

STAKE EXTENSIONS to make above stakes tall enough for 183cm (6ft) Weeping Standards. (This method ensures the most economy in the cutting of lengths of piping).

STAKE HEADS to fit either of above. These are indispensable to make the heads of the Weeping Standards self-supporting thus eliminating the danger of losing large plants in gale times.

WOODEN STAKES for ordinary Standard Roses 3.8cm square for strength to hold a mature plant, and 137cm long to allow say 23cm of stake above the top of the standard stem. We recommend tying the stronger branches to the top of the stake to prevent gale damage.

SECATEURS - a moderately priced but efficient tool that we use ourselves and can recommend.

LOPPING SHEARS for heavy prunings.

OSMOCOTE FERTILIZER (9 months, 18-4.8-8.3):

1 kg sufficient for 18 plants (about two matchboxes per new plant).

***CHEMSPREAD**: Wetting agent use with all the undermentioned sprays except for Triforine.

***FOLIMAT**: For long-term control of Aphis.

***CARBARYL:** To kill grubs, caterpillars and earwigs.

RONSTAR SAFE GRANULAR: Pre emergent weedicide.

GARDEN SPRAYER 5 litre or 9 litre.

***MISCIBLE OIL:** To kill scale.

***ROGOR:** For thrip and short term aphis control.

***TRIFORINE:** For black spot and powdery mildew.

CHRYSAL: To prolong the life of cut flowers.

OASIS (Brick shaped): To make flower arranging easy.

LEATHER GLOVES (PAIR): For pruning, etc.

THORN STRIPPER: To remove thorns from cut roses.

We regret regulations do not permit chemicals to be sent by Post or Rail.

For definition of patio classification see page 3.

NEW DAWN

WEEPING STANDARD ROSES

For best effect the Weeping Standard should be planted as a specimen. Staking is most important. We make available in our list of sundries pipe stakes of 4cm diameter, pipe for 1.5 metre weepers, plus extensions for 1.8 metre weepers.

Prices: 1.8m $60.90. 1.5m $55.90

BLOOMFIELD COURAGE

1.8m only. Dark red single flowers with prominent yellow stamens. Many people consider this to be the most effective variety.

NEW DAWN

1.8m and 1.5m. Blush pink, large double flowers in clusters. Recurrent. Very fragrant.

NOZOMI

The very dainty single flat pearl, pink flowers are most pleasing. The very slender canes, with a dense cover of very small shiny leaves hang close to the stock 1.8m and 1.5m.

SEA FOAM

1.8m and 1.5m. White, sometimes flushed light pink, very double, produced in pendulant clusters throughout the season. An added bonus can be had if you place it where approaching car lights will strike it.

NOZOMI. YOUNG PLANT
2nd YEAR OF GROWTH

Old Favourites Price $ 11.60 each

Do you have an old favourite that you would once more like to have in your garden? We have the following varieties available:

Cabbage Rose (Rosa Centifolia Linnaeus): Pink very double. Fragrant. (1596)

Crimson Glory: Deep Crimson full bodied blooms, very fragrant (1935)

Dainty Bess: Large, single, light salmon pink bloom. Fragrant (1925)

Daily Mail Scented: Deep velvety red, very sweet scented (1927)

Etoile De Hollande: Bright red good picking rose, very fragrant.(1919)

Lady Hillingdon: Deep apricot yellow. Fragrant.(1910)

Mission Bells: Vermilion pink, profuse bloomer. Fragrant.(1949)

Mrs H Stevens: White semi double, free flowering (1910)

Rod Stillman: Light pink flushed orange, very fragrant.(1948)

Rubaiyat: Brilliant pinkish red, prolific bloomer, very fragrant (1946)

Shot Silk: Salmon pink flushed orange, very fragrant (1924)

Sunny South: Pink flushed carmine yellow base. Fragrant.(1918)

Talisman: Autumn shades free flowering, very fragrant (1929)

White Rose Of York (R Alba. Linnaeus): White, Fragrant. (1597)

William Orr: Large deep velvety crimson blooms. Fragrant (1930)

Roses and Lilacs in Pots

A gift of flowers that will be long remembered

The traditional season for planting roses and lilacs is June, July plus August, September. This season is now extended with the availability of potted roses and lilacs from October 1st until the following winter season.

Please note our weekend trading hours on page 2. We now offer delivery of these plants to most Melbourne suburbs, please enquire.

To Send a Gift in the United Kingdom:-

Contact the renowned Harkness Nursery
R Harkness & Co. Ltd.

or Tel. 462 420402 Fax. 462422170

They will accept Visa and Mastercard credit cards.

The recipient in the U.K. may choose any roses New or General List but not Standard or Weeping roses for £ 4.50 each plus £ 3.95 per order for freight and packing.

For definition of patio classification see page 3.

BUSH ROSES

★ These well-proven varieties are also available as standards. Standard roses are TWO YEAR PLANTS with 76cm stems which are SUCKERPROOF below ground.

ADOLF HORSTMANN H.T. ★
Golden yellow with a glow of copper, developing to bright golden yellow. Large double flowers held erect on long stems and a vigorous healthy bush. Very fragrant.

ALEC'S RED H.T.
Clear crimson large double blooms with wide petals. The flowers are produced most freely on good stems on a bush that is above normal for health and vigour. Very fragrant.

ALEXANDER H.T. (HARKNESS) ★
A dazzling shade of brilliant vermilion red, much brighter than Super Star produced on long erect stems and highly resistant to mildew, tall grower. Very fragrant.

If it is your misfortune to have room for only a few rose plants this is a must.

New Release 1974. Rose of the Year.

ANGEL FACE H.T. FLORI
Rich deep lavender, double. Medium size H.T. type flowers produced in clusters. Moderate height. Very fragrant.

ANNE LETTS H.T.
Silvery pink, double, tight buds and firm petals, exhibition-type blooms held erect on strong stems. Very fragrant.

ANNE MARIE TRESCHLIN H.T.
Deep orange apricot, double long buds produced freely on long erect stems. Tall grower. Very fragrant.

APRICOT DELIGHT H.T.
Rich deep apricot, double and of good form with broad petals and a long bud. Held erect. Fragrant.

APRICOT GEM FLORI
Rich apricot buds that develop into 6.3 to 7.6cm flowers of 30 petals in medium size clusters.

APRICOT NECTAR H.T. FLORI
Light apricot, the perfectly formed H.T. type blooms are produced in abundance, and show to perfection against the background of the shiny light green foliage. Very fragrant.

This is a firm favourite with many of our customers as a cut rose for floral decoration. I agree emphatically.

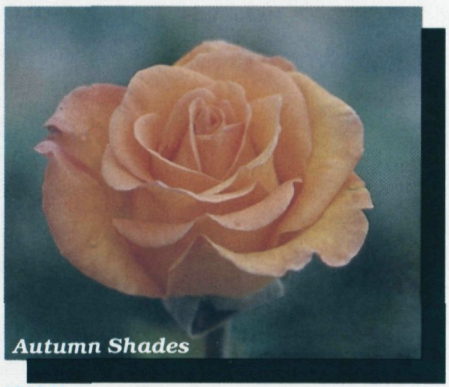
APRICOT SILK H.T.
Rich apricot, long slender buds and attractive blooms with reflexed petals. Upright growth with long stems. Fragrant.

Although this variety has been with us for 13 years now, its sales figures are quite variable with variations of up to 50 per cent. My opinion, The choice of apricot coloured H.T.s is very limited but this one compares favourably with the best of them.

ARIZONA H.T.
Gold, bronze and copper shades. A multi-colour yet the changing colours are a bright new blend. A hardy, vigorous, upright plant which has high production. Very fragrant.

AUTUMN SHADES H.T. (TANTAU) ★
The rich flushes of colour from red to yellow have prompted the name Autumn Shades. The blooms are borne on stiff stems of moderate length, the bush is compact and average height, in all a most satisfactory performer with perfume as a bonus.

New Release 1989. Rose of the Year.



Autumn Shades

AVON H.T.
Rich red, double, large well-formed, long-lasting blooms which keep their colour well. Hardy and vigorous. Very fragrant.

BARONNE DE ROTHSCHILD H.T.
Unfading ruby red with a silvery reverse. Double. The tightly coiled high centred, large flowers of unusual colour attract from afar. This easy to grow rose is normally vigorous and very hardy. Very fragrant.

BELLA ROSA FLORI
Salmon pink buds, 3cm blooms in clusters on a sturdy plant ½ metre (18 inches) in height. A splendid front row variety.

The more I see this variety the more I like it as a bedding or a specimen plant.

BIG CHIEF H.T. (DICKSON) ★
Clear bright crimson, huge blooms of 30 petals, perfect exhibition form. The startling blooms are more highly pointed and larger, without being heavy, than any other variety we have ever seen. Long erect stems in proportion to the blooms. A must for exhibitors and a thrill for any rose grower. Tall grower. Very fragrant.

New Release 1978. Rose of the Year.

BLACK BEAUTY H.T. ★
Black velvety red medium sized but beautifully formed blooms which reflex nicely, produced very freely on long-stemmed hardy growth. Fragrant.

BLUE MOON H.T. ★
Deep mauve, large flowers produced on long strong stems. One of the best in the near-blue group. Very fragrant.

BOBBY CHARLTON H.T.
A blending of deep and light pinks, double high pointed blooms of excellent exhibition form and long-lasting quality are held erect on long stems and a healthy bush. Fragrant.

BOBBY DAZZLER FLORI
The colour is peach pink in the early stages developing to light shell pink. The 7cm flowers dependably have very good H.T. form and are slow opening and produced in trusses on very healthy growth. Fragrant.

BONICA
A recurrent blooming modern shrub type of approx. 1 metre with a cascading habit that makes it an ideal specimen plant or hedging type. The trusses of smallish soft pink buds and open blooms of a lighter shade are indeed most pleasing to the eye.

BRANDY H.T.
Perfumed rich coppery bronze blooms of intense colour, on particularly stiff stems, a most welcome addition to this colour group.

As stocks of this one are limited, it will be strictly for early birds.

BRIGHT BEAUTY H.T. (DELBARD FRANCE)
Is rated tops for intensity of its deep vermilion almost red colour. The form when at its best is outstanding. The size of the bloom when just partly open is indeed larger than average. The plant is both sturdy and vigorous.

New Release 1986.

CAMARA H.T. (DELBARD) ★
Brilliant scarlet crimson red with darker flushing on maturity. Nicely formed double blooms with good quality petals, freely produced, mainly one per stem. An outstanding deep but bright new red. Very fragrant.

For definition of patio classification see page 3.

CAMP DAVID H.T. (TANTAU) ★

Dusky, dark red double blooms with firm petals that are very resistant to rain damage. The plants are sturdy and free branching, and most produce one bloom per stem. Very fragrant. Photo page 4.

CANARY H.T.

Deep canary yellow, edge of outer petals lightly flushed pink. Shapely double flowers freely produced on long erect stems and a very healthy plant. Fragrant.

CANNES FESTIVAL H.T. (MEILLAND)

Blooms rich amber. Large pointed buds, 15-20 big thick petals borne, usually singly, on thick long stems. Seems somewhat resistant to black spot. Tall vigorous variety.

New Release 1985.

CARLA H.T.

Light pink, double, very well-formed flowers up to exhibition standard. Strong grower. Very fragrant.

CATHERINE DENEUVE H.T.

Rich salmon pink, beautiful individual double blooms, freely produced on an upright plant of medium height with large deep green foliage. Fragrant.

CECILE BRUNNER FLORI

Salmon pink, double. The popular buttonhole rose. Small, refined buds, freely produced. This is the true dwarf form, not the extra vigorous form which produces huge trusses of probably 100 flowers which are frequently useless. For best result use as a specimen or hedge to grow 120cm (4 feet). Thrives on hedge-shear pruning. Fragrant.

CHAMPAGNER FLORI

Clusters of blooms in lovely cream tones with reflexed petals, popular with florists.

CHICAGO PEACE H.T. ★

Rich shimmering pink with a buff to silver reverse, large attractive blooms of a nature of Mme A Meiland, from which it is a sport. Fragrant.

CHINA DOLL PATIO

Bright deep pink, double, large clusters of flowers freely produced on short bushy growth, say 25-38cm (10-15 inches). Fragrant.

The most compact of the patio types

Cocka Doo

CHRISTIAN DIOR H.T.

Scarlet crimson, double, well formed blooms (excellent for exhibition purpose) produced freely on long erect stems. Fragrant.

CIRCUS FLORI

Red, yellow, orange and pink, and every-changing colour spectacle. Good form in bud and bloom and healthy bushy growth make this an outstanding variety. Very fragrant.

COCKA-DOO PATIO ROSE (COCKER)

An outstanding representative of the new class of roses called "patio roses". Very bushy, compact low and extremely free-flowing habit, having 6.2cm (2½ inch) multi-petalled blooms of clear red that are delightful at all stages, including fully open.

Available on 56cm Miniature Standard.

New Release 1985. Rose of the Year.

COPPER GEM H.T. (COCKER) ★

The coppery apricot colour is quite unique and most appealing, the blooms are of medium size and beautifully formed. Fragrant.

New Release 1984. Rose of Year.

Copper Gem

CORSO H.T. (COCKER) ★

Colours varying from orange flame to hints of iridescent copper and bronze not found in any other variety. The large double blooms are held erect and are slow opening with excellent exhibition form and are long lasting in water.

New Release 1983. Rose of Year.

COSETTE PATIO (HARKNESS, England)

The 60-70 closely packed narrow petals with petite tips make a bloom of 6cm in diameter that is one of natures stunning creations. The basal canes will have a truss of up to 30 blooms of a mid pink which at times are bordering on mauve. The 45-cm high plant has a spreading uneven habit. Cosette is indeed for the gardener who wishes to try something different. Same as other varieties. Fragrant. Photo page 10.

New Release 1990

DEAREST FLORI

Clear, soft rosy salmon, nicely formed firm buds in clusters. Very fragrant.

DELORE H.T.

Deep cream, double well-formed flowers valued by exhibitors, produced very freely on a sturdy, healthy plant. Very fragrant.

DIAMOND JUBILEE H.T. FLORI ★

Deep buff yellow, very double well-formed flowers valued by exhibitors, produced very freely on a sturdy, healthy plant. Very fragrant.

DOUBLE DELIGHT H.T. ★

White to cream, flushed carmine to red, long pointed buds, large double blooms with startling contrasting colours, sturdy, bushy and free blooming. Fragrant.

DUET H.T.

Soft salmon pink, reverse sparkling orange-red. A very attractive colour combination, flowers freely produced on hardy, vigorous growth. Fragrant.

DUFTWOLKE H.T. (FRAGRANT CLOUD)

Unfading clear coral red, very shapely flowers produced on strong upright stems with highly resistant foliage. Outstanding strong fragrance.

ELINA H.T. (DICKSON, NORTHERN IRELAND) ★

Rose of the Year 1986. This rose astounded me when we transplanted 70 plants in a row, every plant established itself very quickly and in very short order became so dense that one was unable to see through the plant. The medium to large bloom when viewed in profile may appear to be off white, but when looking into the bud, the beautiful, very pale cream, and on occasions even lemon centre, will be admired. These shades vary greatly not only with the seasons but even day to day. Fragrant. Photo page 10.

New Release 1986. Rose of the Year.

ELIZABETH HARKNESS H.T.

Creamy white, delicately flushed rosy amber. Nicely formed flowers freely produced on long stems, and at its best in the cooler weather of Spring and Autumn. Very fragrant.

ETERNA H.T. (DELBARD)

This delicately pale pink has a particularly tall upright habit and produces stems that are slim and strong, with a high proportion of blooms borne singly. A good garden rose that will thrive with a minimum of attention.

New Release 1988.

Corso

For definition of patio classification see page 3.

EUROPEANA FLORI
Dark crimson, open rosette flowers in large clusters. A hardy, very free-flowering and very attractive variety. Fragrant.

EVELYN FISON FLORI
Brilliant deep red which does not fade. Double blooms freely produced. Fragrant.

FERDY
This semi prostrate shrub type does not require pruning and being particularly hardy, is suited to landscape use. It produces masses of small rich salmon blooms especially in spring. The dense mat of fine foliage, in itself, has a pleasing effect. Height average. *Pat. applied for.*

FERRY PORSCHE H.T.
Dark red, large double blooms produced on very long and very strong erect stems, hardy. Fragrant.

FIRST LOVE H.T. ★
Lovely blending of soft pink and rose, semi-double, long buds with well-reflexed pointed petals, erect, vigorous, free-flowering, almost thornless, hardy. An outstanding variety.

FIRST PRIZE H.T.
Two toned deep rose pink double, nicely pointed buds and well formed flowers with reflexed petals. Vigorous, upright and free flowering and very dependable. Fragrant.

Formerly the most popular rose in the U.S.A.

FRAGRANT CLOUD
See "Duftwolke".

FRIESIA H.T. FLORI
Bright deep yellow, nicely formed flowers and compact healthy growth. Free-flowering and very fragrant.

FRENCH LACE
A compact bud of 30 plus petals. The inner bud of clear honey colour progresses through beige to a creamy ivory outer.

FRILLY DILLY PATIO ROSE (COCKER)
The height is between 30-50cm. the form of the Frilly Dilly is most unique. The flowers are of the most delicate form and colour. The fully open bloom is of 3.2-4cm in diameter and the petals being 80-90 in number, are very long in relation to their width, slightly cupped and have a tendency to be stacked in columns, the length of each underlying petal being slightly greater than the one above. A small bowl of these blooms would be quite a conversation piece at any dinner party. Your home has a spot for this beauty whether it be in the garden or on the patio. Also available on 56cm standard. Being of a most delightful shade of shell pink. Photo page 11. **New Release 1986.**

GINGER MEGGS H.T. FLORI
The colour of this variety is quite distinctive, we consider it to be the nearest to carrot-red we have seen. The bush is not only healthy but extremely free branching, therefore free-blooming. The flowers are attractive at all stages including fully open 10cm (4 inch). Fragrant.

GOLD BUNNY FLORI
The soft gold blooms are fairly large and of classic form, borne almost continuously on a compact healthy plant, singly or in small clusters on medium stems. Awards at three test gardens in Europe.

GOLDEN FRIENDSHIP HARKNESS. U.K. ★
Picture front cover. Description page 3.
1991 New Release.

Cosette

GOLDEN GIANT H.T.
Golden yellow, double well-formed blooms of excellent exhibition standard produced on long strong stems. A first class variety which makes a bush much taller than average. Fragrant.

GRANDPA DICKSON H.T.
Deep lemon yellow, double. Pointed buds that develop into well-formed exhibition-type flowers with reflexed petals. Very free-flowering on a moderate sized plant popular in every state. Fragrant.

HEADLINE H.T.
Deep yellow, flushed carmine, double well-formed flowers which reflex nicely. Vigorous with good stems and foliage and few thorns. Definitely one of our best yellow varieties.

Colouring very much like: Mme A Meiland (Peace) but with a longer bud and a taller more upright habit.

HELEN TRAUBEL H.T.
Salmon pink shading to apricot. A beautiful semi-double variety with broad petals that open cleanly in all weather. Long stems and hardy growth. Fragrant.

HELMUT SCHMIDT H.T. ★
Pure clear yellow, beautifully formed blooms on a splendid free-flowering bush. Has won many medals overseas.

We expect this to be one of our top selling yellows in a year or two.

HONOR H.T
This pure white boasts particularly long buds on long strong stems. Fragrant.

HOT LIPS H.T. (DICKSON) ★
The fully double bloom is invariably borne singly on the stiffest of stems. The bloom is bright orange flame bordering on red, the outer edges of the petals at times exhibit deeper flushings which further enhance the appeal of the bloom. Photo page 11.
New Release 1989.

ICEBERG FLORI (Schneewitchen) ★
Pure white, double flowers in long decorative sprays. Very long lasting when cut. Very fragrant.

This profuse bloomer makes an outstanding specimen plant.

ICED GINGER H.T. ★
The dominant colour is iced ginger on the reverse of the petal with the top side being ivory but reflecting the deeper shade. The blooms, although only of medium size, are very nicely formed and produced abundantly on long erect stems. Highly recommended. Very fragrant.

IMP H.T. FLORI
White with petals heavily margined with red, 6.3cm (2½ inch) double flowers that reach their most attractive stage when fully open. The best "novelty" variety ever. Hardy, free-flowering, and long lasting. Fragrant.

JANINA H.T.
Deep salmon flesh with reverse deep maize yellow. Double well-formed short but firm buds, mostly singly per stem with few thorns and erect habit. Quite distinct and very fragrant.

JESSIKA H.T.
Salmon and pink shades in bud and half open bloom, developing to apricot yellow with a pink flush. Attractive double blooms produced very freely on erect stems. Fragrant.

JEZZA-BELLE H.T. (DELBARD, FRANCE) ★
Moderate sized blooms with ivory white petals the edges of which are blushed with a pinkish red, also the inner recesses at times show a blush of amber. Vigour is average. Photo page 11.
New Release 1990.

Elina

For definition of patio classification see page 3.

ACKNOWLEDGEMENTS

We will not normally send an acknowledgement for orders we expect to be able to supply in full. Those orders containing varieties that are sold out on receipt of order will be acknowledged. If however you require an acknowledgement, enclose a stamped addressed envelope.

QUANTITY DISCOUNTS

If your order for plants excluding discount offers and sundries exceeds:

$123 deduct $5.00 $224 deduct $26.00

$187 deduct $14.00 $276 deduct $40.00

For those customers envisaging a large bed, driveway or hedge planting roses with a value greater than $300 please enquire as to our large order discounts.

COLLECTION DISCOUNTS

See pages 4 & 5 of catalogue for details: and on last column of order form for ordering.

JOHN F. KENNEDY H.T.

White, large double blooms with a high centre, borne singly and several together on strong stems and a vigorous upright bush. The blooms have very good lasting quality. Fragrant.

JOYFULNESS H.T. (TANTAU) ★

Pastel shades of apricot, cream and pink. Large sized blooms of very attractive shades very freely produced, usually solitary on long stems. A most welcome addition to the fancy colours list. Fragrant. Photo page 12.

If I only had room for one rose in the colour blends group this would be it.

New Release 1985. Rose of the Year.

JUBILEE 150 H.T. FLORI (MEILLAND)

Named for South Australia's 150th Jubilee. A most attractive addition to the fancy colour group in shades of yellow, orange and red, increasing to deeper red on the outer petals. Viewed in profile, the reverse of the petals has a pronounced vee of red on ivory to yellow. The bloom is at its most attractive stage when the outer petals are fully open.

Our potted plant sales prove that once seen this is a "make room for that one", VARIETY.

New Release 1986.

JULIA'S ROSE

Flower arranger's delight. Long pointed buds unfold to reveal beautifully shaped flowers of an unusual blend of dull copper and parchment.

As with Frilly Dilly a vase of Julia's Rose is an excellent conversation piece, include a few stems of Apricot Nectar to mix and match.

JULISCHKA FLORI

Brilliant scarlet red 6.3-7 cm (2½-3 inch) flowers of 25 petals produced freely in trusses with splendid foliage that retains the suggestion of red young leaves until flowering time. The brilliant colour of the flowers stands up to extremes of wet or heat. Fragrant.

JUST JOEY H.T.

The soft coppery orange to buff shadings will instantly win your admiration and it is also fragrant.

New to the 1990 Catalogue.

Frilly Dilly

KERRY GOLD FLORI

Deep canary yellow, sometimes flushed red, medium sized double flowers which keep their colour well and are freely produced in medium to large clusters. Extremely resistant to Black Spot. Very fragrant.

LADY ROSE H.T.

Shining salmon-orange with a yellow base. A very shapely bloom with a high centre and 30 or more petals. Reliable growth and splendid foliage. Fragrant.

LADY X H.T.

Soft mauve, double. The colour is a delicate soft shade quite distinct from others in this colour group. The flowers have long, high pointed centres of pronounced spiral formation. Tall grower. Fragrant.

Cut stems 61cm (2 feet) long and the bush will not mind - a beautiful combination in the vase with Royal Highness (which also has good stem length).

Jezza Belle

LA MARSEILLAISE H.T. ★

Clear deep red, double blooms produced in abundance on an extremely sturdy healthy plant.

This is the most prolific bloomer of all the reds we list, therefore being a very dense bush these attributes make it an excellent hedging variety or specimen plant.

LAS VEGAS H.T. (KORDES)

A very bright bi-colour of true orange and yellow. Very free-flowering from early to late.

LILLI MARLENE FLORI

Rich glowing crimson, semi-double 7.5cm (3 inch) flowers of excellent substance produced in clusters on a splendid bush. Definitely one of our most dependable red bedding roses. Fragrant.

LORD GOLD H.T. (DELBARD) ★

Deep yellow, nicely formed double blooms held erect on long stems. Tests showed high resistance to century heat. The best yellow H.T. it has been our privilege to grow.

Photo page 12.

New Release 1985.

LOVELY LADY (DICKSON, IRELAND) ★

Awarded Certificate of Merit Royal National Rose Society, England. She is indeed a lovely feminine lady and, as befits such a lady, her perfume is most becoming. The tight buds are watermelon pink and of moderate size. This colour turns to a very delicate shade when the bloom is partially open. The flowering habit is particularly prolific, so presenting quite a confection of colour on the plant. Her height is a petite 1.2m (4 feet). She may be regarded as a decorative Hybrid Tea (large flowered type), or as a bedding Floribunda. (small flowered type). Photo page 12.

New Release 1987. Rose of the Year.

LOVELY LOUISE FLORI (DICKSON N. IRE.) ★

This profuse floribunda type gives an eye catching display of coppery salmon buds that turn salmon as they open. It has sufficient bud form to be picked in the early stages to produce a delightful informal bowl. It will make an excellent low bedding variety with these characteristics. Up to 60 blooms per truss. Quick repeat crop, even if the spent blooms are not removed. A compact bush of 61-76cm.

New Release 1990.

MARJORIE ATHERTON H.T.

Deep yellow buds opening to mid-yellow, large blooms with firm petals and a good form with some of exhibition standard. Frequently borne singly, always on long, strong, erect stems. Hardiness far superior to most yellow H.T.s. Fragrant.

A distinct warm shade of yellow that is unique.

MARLENA PATIO

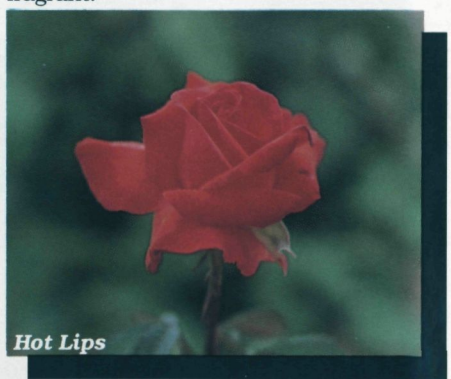
Brilliant crimson scarlet, the multitude of flowers makes a carpet of vivid colour. Highly recommended as an outstanding low growing variety for the front row or as an edging, say 30-45 cm (12-18 inches).

MERRY WIDOW H.T.

Rich unfading red, semi-double, long buds and long stems freely produced. Very fragrant.

MISTER LINCOLN H.T. ★

Deep red, double, large well-formed flowers produced very freely on a vigorous and healthy plant. Tall grower. Very fragrant.



Hot Lips

For definition of patio classification see page 3.

MME A MEILLAND H.T. ★
Yellow edged with pink, double. Very wide petals of excellent substance making a well-formed bloom of outstanding beauty. Vigorous and fragrant.

MME G DELBARD H.T. (DELBARD) ★
Bright deep red, well-formed double blooms held erect on long stems, mostly one per stem and the flowers are highly resistant to wet weather. An outstanding variety that the long-time raiser has confidently chosen to name for his wife. Photo page 13.

If you only have room for 2-3 Reds in your garden include this beauty.

New Release 1985.

MODEL OF PERFECTION H.T. FLORI
Deep yellow with an orange tint outer petals deep cerise. Very double and delicate form for a small bloom. Fragrant.

New Release 1979. Rose of the Year.

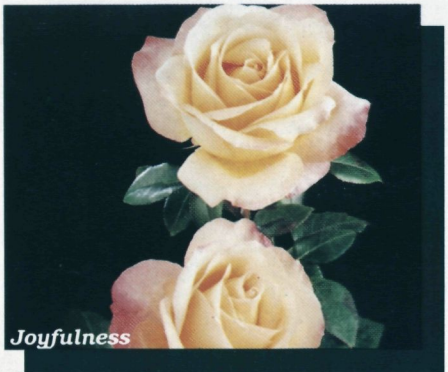
MOUNT SHASTA H.T.
Pure white, double, long broad petals make up an attractive long pointed bud and well-formed flowers which keep well. Free-flowering and healthy. Fragrant.

NANA MOUSKOURI H.T. FLORI
Cream, opening to white. 10cm (4 inch) shapely blooms in small and large clusters held erect on a very free-branching, free-flowering plant. Fragrant.

These delicately shaded blooms make a lovely dinner table bowl.

NORITA H.T. ★
Black velvety red, very double, long pointed buds, long lasting flowers and a very strong healthy plant. Definitely one of the best black red varieties. Fragrant.

NORTHERN LIGHTS H.T.
Primrose yellow, sometimes flushed pink. Large double flowers of great substance and beautiful exhibition form regularly having a circular outline, evenly spaced petals that reflex well, and a fine pointed centre. The habit of growth is upright compact, free-flowering and hardy. Very fragrant.



Joyfulness

OLAVE BADEN POWELL H.T. ★
Named for the wife of the founder of the Scouting movement.

A superb rose of brilliant orange-scarlet colouring. The beautifully formed flowers are carried on strong stems and are long lasting when cut. Fragrant.

Olde Fragrance: (TANSCHAUBUD, TANTAU Germany) ★
My first reaction when testing for fragrance, was "Wow!!" and it remains so. The centred cerise pink blooms are on a plant the vigour of which is par excellence and produces blooms in abundance. The diameter of which, when full blown is 14cm.

This variety is protected under Plant Variety Rights.

New Release 1990. Rose Of The Year.

Lord Gold

OLYMPIC TORCH H.T.
White petals margined pink with pink extending and deepening as the blooms open. A highly decorative and quite distinctive garden variety, having 40-45 large broad petals and a very attractive combination of colours.

OPHELIA H.T.
Soft light pink, semi-double, well-formed flowers freely produced on hardy growth. Very fragrant.

PAPA MEILLAND H.T. ★
Dusky crimson velvet, double, long pointed buds and nicely formed flowers with petals of good substance on long erect stems in moderate numbers. Tall grower. Very fragrant.

PARADISE H.T. ★
Lavender, edged with magenta-red, double, excellent form with a high centre. Produced freely on a sturdy plant. Heavenly fragrance.

Excellent blends of mauve.

PASCALI H.T. ★
White with a cream centre. Double well-formed slow-opening blooms produced on vigorous growth which is highly resistant to mildew and black spot. Vase life is exceptional.

PATRICIA H.T.
Clear deep salmon pink 7.5cm (3 inch) flowers of 25 petals, freely produced in clusters. Fragrant.

PAUL SHIRVILLE (Harqueter Wife, HARKNESS ENGLAND) ★
This fragrant profuse bloomer has been given awards for fragrance in the United Kingdom and New Zealand. The rose pink petals show varying depths of colour from tip to base with a paler shade on the reverse, the 25 petals promote a good appearance in the bud form, the full bloom being 8 cm in diameter. It may be pruned and grown as a Hybrid Tea or equally well, pruned hard and grown as floribunda bush. *Photo page 13.*

New Release 1988. Rose of the Year.

PEACE
See "Mme A Meilland".

PEACH MELBA H.T. (KORDES)
Very beautiful colour of apricot bronze. Twenty or more petals, flowers nicely formed, very free-flowering with good foliage especially for such a colour. Good grower.

If you love the peachy shadings of the "Joyfulness" in your garden these still deeper shadings will win you.

New Release 1985.

PERFUME DELIGHT H.T. ★
Deep pink, double, nicely formed blooms with broad petals of excellent substance which stand up well to wet conditions. Vigorous, free-flowering and tough, with strong spicy fragrance.

PETER FRANKENFELD H.T. ★
Deep rose pink, double blooms of excellent form with a high pointed centre. Large flowers, borne singly on good stems with excellent foliage and healthy growth. Very fragrant.

PFALZER GOLD H.T. (TANTAU) ★
This outstanding new release has the unusual characteristic of often having some blooms a clear mid-yellow and at the same time some blooms at the same stage of development being a pale lemon. The stronger shoots produce trusses of blooms in the manner of Floribunda while lighter growth produce 1-2 blooms per stem with slight perfume. The bush is of good average vigour with leaves so large that they will cover the palm of one's hand.

New Release 1988.

Lovely Lady

For definition of patio classification see page 3.

PINK PARFAIT H.T. FLORI

Softly blended shades of pastel pink in a most lavish manner. It produces perfect buds and lovely blooms in amazing numbers on vigorous upright growth and excellent cutting stems. The blooms, although not fully double, are particularly long lasting when cut and hold their colour well. Fragrant.

PINKIE PATIO

Excellent dwarf habit with a dense cover of foliage topped by 3.5cm rose pink blooms.

POLAR STERN H.T. (TANTAU) ★

We welcome the long-awaited arrival of a new, full-bodied white with good form and reflexed petals. The Polar Stern bloom is indeed full-bodied having 45-50 petals, but is not so slow opening as to incur weather damage. When viewed in profile it is white, although with changing weather conditions the deeper recesses of the bloom can be various shades of cream. It is a prolific bloomer of good vigour. The stems are of good length and stiff, thus preventing a hanging head. Moderately fragrant. Photo page 14.

For bloom size this is the largest white in our list.

New Release 1987.

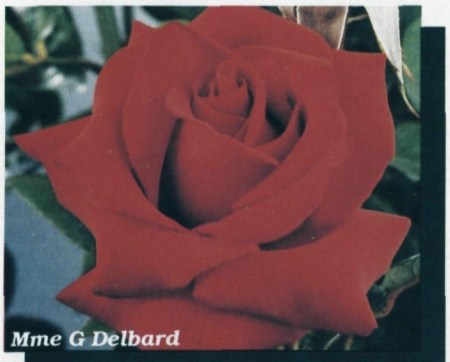
PRECIOUS PLATINUM H.T. ★

Bright crimson, double long pointed blooms with petals of very good substance produced mostly singly and erect on long strong stems in profusion. Glossy foliage. Highly recommended. Fragrant.

The most sturdy of the sturdiest of red varieties.

PRIMA BALLERINA H.T.

Brilliant rich rose pink, double. The blooms are large in diameter and composed of very broad thick petals of a brilliant and attractive shade that keeps well. The normally vigorous growth is remarkably hardy, and the plentiful foliage makes an excellent background for the blooms, which open freely in all weather. Prima Ballerina has been grossly overlooked but we consider it to be one of the most desirable roses available. Very fragrant.



Mme G Delbard

PRINCESS DE MONACO H.T.

Ivory white with a distinct margin of carmine pink, large double blooms of exhibition form freely produced on a sturdy, healthy, upright plant. Fragrant.

PRINCESS MARGARET H.T.

Bright deep rose pink which does not fade. Thirty large broad petals form a beautiful bloom of elegant form. The plants are normally vigorous, healthy and very free-flowering. Fragrant.

PRISTINE H.T.

The bloom is white bordering on ivory with the other ⅓ of each petal having just a blush of pink. The bloom is of good form with the outer petals opening quickly whilst the centre still remains firm. Fragrant.

New to the 1990 Catalogue.

PROMINENT H.T. FLORI (KORP)

Orange red to vermilion double blooms of small H.T. type and form with a fine pointed centre and beautifully reflexed petals. Blooms held erect and freely produced.

The blooms last exceptionally well and the variety is one of our real favourites. Fragrant.

QUAKER STAR (Dicperhaps)

Picture front cover. Description page 3.

1991 New Release.

QUEEN ADELAIDE (MEILLAND)

Distinctly in the "old world" style in both colour and form. Large globular buds of lilac to pink open to large blooms of 1.2cm across with an attractively ruffled appearance. A low and bushy habit with only a few thorns.

QUEEN ELIZABETH H.T.

Soft pink, semi-double very free-flowering, hardy and vigorous - an ideal hedge rose. Tall grower. Fragrant.

RADOX BOUQUET H.T. (HARKNESS)

The large double warm rose-pink flowers have pronounced "old garden" charm with many petals and glorious fragrance as with the "old garden" roses of former days. An easy to grow, vigorous healthy plant with long stems, handsome foliage and good repeat flowering. Awarded Coupe de Parfum in 1980 Swiss Rose Trials.

Special offer available, see page 6.

RED FAN (KEISEI, JAPAN) ★

Picture front cover. Description page 3.

1991 New Release.

RED GOLD H.T. FLORI

There is nothing like Red Gold, a very gay colour, it is original in its merging of red into gold, each bloom on a large truss is perfectly formed and holds its attractiveness until the petals fall. A compact growing habit, well-balanced and of medium height, with attractive red and dark green foliage. Fragrant.

REGENSBERG PATIO

A particularly compact plant that will make excellent low borders. The 5cm diameter blooms show a lovely combination of what centres with both deep and lighter shades of pink of the outer edges, yellow stamens adding to the contrast.

REMEMBER ME (COCDESTIN, COCKER SCOTLAND) ★

Picture front cover. Description page 3.

1991 New Release. Rose Of The Year.

ROYAL DANE H.T.

Golden apricot, flushed orange red. Very shapely double flowers of a unique and attractive blend of colours. Hardy, vigorous and free-blooming. Fragrant. Tall grower.

ROYAL HIGHNESS H.T. ★

Clear light pink, double, good exhibition form, individual blooms held erect on long strong stems which have few thorns. Recommended. Tall grower. Very fragrant.

SCARLET QUEEN ELIZABETH H.T.

Brilliant flame-scarlet, semi-double clusters of medium sized flowers produced in abundance on an extra tall but extremely healthy bush. A wonderfully showy garden plant. A seedling from Queen Elizabeth, not a sport. Highly resistant to thrips, rain and drought. Fragrant.

This would be our most suitable scarlet tall hedge variety. Height two metres.

SEA FOAM

This startling white is reintroduced for its suitability as a ground cover type. Also see photo and description as a weeping standard page 7.

SEA SHELL H.T.

Salmon with a creamy yellow base. Lovely buds opening to large double blooms, usually one per stem. Few thorns, excellent health. Very fragrant.

SHADY LADY FLORI

The medium sized Floribunda type blooms are of a rose pink shading to ivory centres. Height average. Fragrant.

Her most vital attribute is her ability to perform in shaded areas. Pat. applied for.

Paul Shirville

For definition of patio classification see page 3.

SHOCKING BLUE H.T. FLORI

Large, long pointed, well-formed flowers of magenta-crimson, very freely produced on a healthy plant. Very fragrant.

The colour almost defies description. If you have a passion for the unusual you will love this one.

SILVER JUBILEE H.T. ★

The colour is truly a confection of pink, apricot, peach and cream and deepens during warmer weather. The freely-produced blooms are beautifully formed and the compact bush is highly disease-resistant. Fragrant.

New Release 1981. Rose of the Year.

SILVER LINING H.T.

Pale rose with a silver base, outer petals deeper rose. A beautiful full, shapely bloom. A splendid free-flowering healthy plant. Very fragrant.

SIR HARRY PILKINGTON H.T.

Clear bright red, about 30 broad petals producing excellent exhibition-type form which holds well. A high proportion of stems have only one bloom, which is a very desirable quality. The flowers stand up to bad conditions very well. Free-flowering. Fragrant.

SONIA H.T.

Beautiful soft porcelain pink, double, nicely-formed blooms up to exhibition standard with a good centre and moderate reflex. Freely produced and dependable.d Fragrant.

SPEK'S YELLOW H.T. ★

Deep and brilliant yellow that holds well, especially when cut young. Medium size blooms of attractive form, very freely produced. Highly recommended. Very fragrant.

SUMMER FRAGRANCE

(Tanfudermos. Tantau, Germany). ★

Picture front cover. Description page 3.

1991 New Release.

SUMMER SUNSHINE H.T.

Deep yellow semi-double, long pointed blooms held erect, usually borne singly. Vigorous and hardy.

Also the first to bloom in spring and the best to give good blooms right up to winter pruning time. Fragrant.

SUNBLEST H.T. (TANTAU) (Landora) ★

Deep golden chrome yellow, long pointed, shapely blooms freely produced on good stems and a healthy plant. Similar to King's Ransom but the blooms are held erect. Fragrant.

New Release 1982. Rose of the Year.

SUNDOWNER H.T.

Golden-orange, large double flowers with high pointed centres and classic form, free-blooming on long erect stems. A.A.R.S. winner. Very fragrant.

SUNFLARE PATIO

Bushy compact growth carrying bright yellow blooms of intense colour on a glossy green foliage.

SUN KING H.T.

Ochre yellow - the colour is superb in the bud and opening flowers. Large double flowers up to 12.5cm (5 inches) and the petals do not become unsightly on the plant. Very free-blooming and mostly one per stem. Highly disease-resistant. Fragrant.

For a comprehensive range of colours include this one as it is the only deep yellow that does not verge on apricot.

SUNSET SONG H.T. (COCKER)

Coppery yellow of a unique and most attractive shade, double medium sized flowers produced in great abundance on a sturdy healthy plant. In our trials this variety demonstrated excellent resistance against thrips and rain damage. Fragrant. Trial Ground Certificate R.N.R.S.

SUPER STAR H.T. ★

Pure vermilion, double. One of the brightest varieties available. Popular all over the world. Long stems, vigorous growth, and very free-flowering. In some districts rather prone to mildew but still well worth growing. Lasts well when cut. Very fragrant.

SUTTER'S GOLD H.T.

Buds ruddy gold, blooms yellow stained pink, semi-double long bud, broad petals, long stems freely produced. Excellent garden rose. Tall grower. Very fragrant.

SYLVIA H.T.

Soft shining mid-pink, the blooms regularly are nicely formed having 40 or more petals gracefully arranged around a high centre. The growth is upright with long stems and long-lasting flowers. Very fragrant.

Excellent vase life.

TATJANA H.T. ★

Fiery dark red with black velvety shadings, long pointed buds developing into well-formed blooms of noble proportions on strong stems. Very fragrant.

THE FAIRY PATIO

Rose pink, double small flowers in trusses produced freely on a low to prostrate plant. Most attractive.

Now also available as a 1.5 metre Weeping Standard.

TOP GEAR PATIO

Very compact plant, makes a startling show of colour. Yellow stamens, yellowish white eye, bright deep red petals, that become rose pink flecked white.

Available on 56cm miniature standard.

VIOLET CARSON FLORI

Peach and biscuit, with a yellow reverse. The lovely coloured H.T.-type buds open slowly and are of superb form, and are produced freely on a splendid bush. A decided acquisition. Very fragrant.

VIRGO H.T. FLORI ★

Pure white, semi-double, exquisitely pointed buds and moderate sized flowers held erect on long stems. Fragrant.

VOL DE NUIT H.T. ★

Clear deep mauve, double. The petals are broad and thick and the form is excellent for exhibition with reflexed petals. Held erect on strong stems and a tough bush. Without doubt the leader of this colour group. Very fragrant.

WOBURN ABBEY FLORI

Deep copper orange with yellow, medium sized semi-double flowers with nicely formed buds. The shades are very warm and attractive. Very fragrant.

ZONTA (HARKNESS, England)

(Named after the ladies' service club "Zonta".) This hardy bush produces small to medium size flowers in a pale to mid-yellow on large trusses. The blooms are held erect on stiff stems. For best effect allow Zonta to build up to a shrub of about 1.2-1.5 metres (4-5 feet) in height. Photo page 14

New Release 1987.

For definition of patio classification see page 3.

MINIATURE ROSES

Double Joy

Ocarina

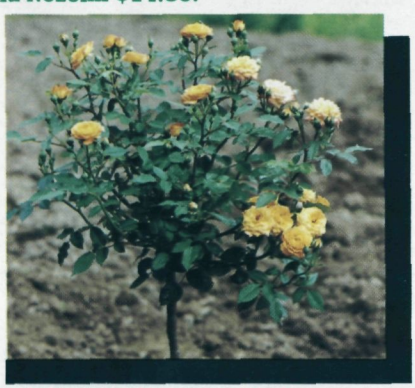
Cuddles

Holy Toledo

STANDARD MINIATURES

Miniature Roses grown as 56cm standards. These make very attractive specimens and help to create interesting sections in a garden plan. For varieties available as Standard Miniatures see those names marked ★ in the list of Miniature Roses.

Also see Bush Roses section for Patio Roses available on Miniature Standard Frilly Dilly $14.80, Cocka-Doo $14.80. and Nozomi $14.80.



BUSH MINIATURES

Miniature Bush Price $7.95 Each
Standard Miniature $14.80 Each
(unless Otherwise Marked)

These miniature roses have very small flowers, mostly 1.2-4cm (½-1½ inches) when fully open and usually double, well-formed buds. The habit of growth is short and bushy and they are very useful for use in rock gardens, window boxes, pots, and for low edgings as they are fully recurrent, flowering for seven or eight months.

AMORETTE
Creamy white, double, firm buds and fragrant flowers.

ANTIQUE ROSE
A slim high centred bud of deep antique pink on a bush that is more vigorous than average for miniatures, so plant separately. Good for picking.

CHATHAM CENTENNIAL
A bright vermilion red with a firm bud of 38 petals. Fragrant. A very prolific bloomer with good miniature habit of 20-30cm.

The brightest variety in this list. Also particularly resistant to Black Spot.

For ordering see bottom of last column on order form.

CORAL TREASURE
Double rich coral-pink flowers with good buds on a taller than average bush. Fragrant.

CUDDLES
A light salmon pink cup shaped bloom with numerous reflexing petals. The colour of which progresses to a much deeper shade when full blown.

CREAM GOLD ★
A many petalled well formed cream bud on good growth, suitable for picking.

DOUBLE JOY ★
Soft coral pink, well-formed flowers, 35-40 petals and very few thorns. Free-flowering, healthy plants. Fragrant.

GOLDEN ANGEL ★
Pure rich yellow, fully double blooms. 3.8cm (1½ inches). Healthy, free-blooming and an ideal buttonhole rose. Fragrant.

GREEN ICE
White or pale pink changing to soft green in the open flower (especially in semi-shade). Free-flowering, compact and hardy.

HOLY TOLEDO ★
Bright pinkish apricot shadings with good bud form and reflexing petals.

LAVENDER JEWELL
Deep lavender, excellent colour and well-formed double flowers on a sturdy plant. Fragrant.

LITTLE RED DEVIL
At last a red miniature with a firm shapely bud, and good growth.

MY VALENTINE ★
Crimson red, small petalled blooms in a tight cluster with about 12-14 flowers out at the one time. Flower size is about 2.5cm (1 inch) or less with about 50 to 60 small petals in each flower. Very free-flowering. Flowers are long-lasting either on the bush or cut.

OCARINA
Coral pink, semi-double, dwarf and compact. Fragrant.

Most prolific, one of my favourites.

ORANGE HONEY
A soft honey - orange colour, with a yellow base to the petals and a yellow reverse. Fragrant.

PARTY GIRL ★
A delicate creamy centre with the petal tips having just a tinge of pink. The bud is very firm and well formed.

PERLA DE MONTSERRAT ★
Rose pink like a miniature Cecile Brunner of exquisite form. Very compact low growth ideal for a dependable low edging.

Highly Recommended.

For definition of patio classifications see page 3.

PORCELAIN PINK
The centre of the bloom is of the palest apricot pink, graduating to ivory suffused with colouring. The many pettaled bloom, when fully open has a diameter of 5cm growth is good. It also a slight frangrance.

PUPPY LOVE ★
Varying shades of peach and apricot with the outer petals edged carmine. A good bud with reflexing petals.

Highly Recommended.

RISE 'N' SHINE
Clear deep yellow, beautiful double buds and blooms produced very freely. One of the very best yellows. Fragrant.

STRAWBERRY SWIRL
Each double small bloom is a swirl of strawberry and cream. No two flowers alike. Buds are very lightly mossed.

CLIMBING MINIATURES

Climbing Miniatures Price $9.25 Each.

Growing 1-1.5 metres (3-5 feet) average.

CLG BABY DARLING
Orange pink, double. A welcome addition. Recurrent.

CLG CANDY CANE
Deep pink with white stripes, 4cm (1½ inches) flowers in sprays. Recurrent.

CLG RED CASCADE
A most unusual miniature climber, which has deep red double flowers about one inch across and produced in profusion. It is a splendid ground cover and will spread to around five feet in a dense mass if allowed to do so. It can be used as a dense climber, or it can be kept clipped to fill a smaller space. It will weep over walls, or make a hanging basket. Recurrent.

CLG SUGAR-ELF
Small pink gold buds opening to a flower of about 10 petals and 1 inch across. Up to 15 inches high and good ground cover or good for a hanging basket as well as a small climber. Recurrent.

CLG TWIGGY
The bright many petalled mid-pink flowers are of normal bloomsize for a miniature. Dense habit of growth with canes of 1.3 metres in length. May be grown as a climber, or trim the canes before flowering to treat as a "shrub" miniature.

Either way it is an eye catcher.

CLIMBING ROSES

Husky Two Year Old Plants

Price $9.40

(UNLESS OTHERWISE MARKED)

PILLAR: Varieties marked thus ■ are suited for growing against a post or small areas of fence, but not for tall pergolas. VIGOROUS: These are normally vigorous climbers, suited for general fence and pergola use. VERY VIGOROUS: These are most vigorous sorts for covering extensive areas.

NOTE: Many climbing varieties do not bloom the first season.

The varieties marked thus ■ are moderately vigorous and fully recurrent bloomers, and could properly be termed "MODERN EVER-BLOOMING PILLAR ROSES".

FOR FENCE COVERING: Climbers can be planted 3-4 metres (or say 10-12 feet) apart.

N.C. = Natural Climber C.S. = Climbing Sport

CLG ALTISSIMO
Bright scarlet red, single, large flowers freely produced. Recurrent N.C.

CLG BANKSIAE LUTEA
Deep yellow fading to cream, double in clusters. A very early bloomer and most attractive. Thornless. Commonly called Banksian Yellow. (Prune after flowering.) Vigorous N.C.

CLG BENVENUTO ■
Cherry red, semi-double, medium sized flowers with prominent centre and stamens of yellow. Very free-flowering. A worthwhile acquisition. Pillar. N.C.

CLG BLACK BOY
Dark red in early stages but becomes much lighter as blooms open. Loose open flowers produced very freely earlier than most roses, making it very popular. Very hardy. Very fragrant. Very vigorous. N.C.

CLG BLOSSOMTIME ■
Soft pink with deep reverse, colours as found in "First Love". Medium sized blooms in H.T. form in small clusters. Truly recurrent flowering and a most attractive variety. Very fragrant. Pillar. N.C.

CLG BLUE MOON
Deep mauve, large flowers on strong stems. Very fragrant. Vigorous. C.S.

CLG CASINO ■
Buttercup yellow, double, large, well-formed flowers. Recurrent. Fragrant. pillar. N.C.

CLG CHINA DOLL **10.25**
For description see page 9.

This extremely popular border type is now offered in the climbing form, also suitable for pillar.

CLG COCKTAIL ■
Geranium red, centre primrose yellow, single flowers produced in clusters. Recurrent. Pillar. Fragrant. N.C.

CLG ENA HARKNESS
Deep rich red, well-formed exhibition blooms. Recurrent. Fragrant. Vigorous. C.S.

CLG GOLDEN SHOWERS ■
Rich daffodil yellow which holds well, large semi-double blooms in clusters, freely produced. Fully recurrent. Fragrant. Pillar. N.C.

CLG GUINEE **10.25**
The deepest climbing red almost black in the bud form, semi-double, recurrent blooming. Fragrant.

CLG HANDEL ■
Cream, heavy edged deep rose-pink, semi-double, an unusual and effective climber. Recurrent. Pillar. Fragrant. N.C.

CLG ICEBERG **10.25**
All the attributes of the bush form, now available as a climber.

CLG JOSEPH'S COAT ■
Yellow and red, semi-double flowers produced freely in clusters. Recurrent. Fragrant. Pillar. N.C.

CLG MEG
Shell pink, tinted apricot, red stamens, semi-single. Blooms up to 15.2cm (6 inches) across, superlative decorative charm. Recurrent. Vigorous or Pillar. Fragrant. N.C.

CLG MERMAID **10.25**
Sulphur yellow, single (five petals). The flowers are very large, having broad petals, and the deep amber stamens stand our prominently. Recurrent blooming. Vigorous. N.C.

A much sought after variety, a good hardy grower (but difficult to propagate in the nursery).

CLG MISTER LINCOLN
Deep red double, large well-formed flowers. Very fragrant. Vigorous. C.S.

CLG MME A MEILLAND
Yellow edged with pink, double. Fragrant. Very vigorous. C.S.

For definition of patio classification see page 3.

CLG OPHELIA

Soft light pink, semi-double. Recurrent blooming. Very fragrant. Very vigorous. C.S.

One of the best climbers.

CLG PASCALI

White with a cream centre, double, well-formed slow opening. Blooms produced on vigorous growth which is highly resistant to mildew and black spot. Vase life is exceptional.

The best climbing white.

CLG PAUL'S LEMON PILLAR 1915 **10.25**

Large pale lemon yellow flowers, very fragrant, blooms suitable for picking.

CLG PEACE

See "Climbing Mme A Meilland"

CLG PIERRE DE RONSARD MEIVIOLIN

The large double blooms are china pink with a much deeper colouring in the centre. Their appearance is distinctly Olde World. Mildly fragrant. Recurrent.

The canes are almost thornless. Use as a shrub, Climber or Pillar to 2 metres in height.

CLG PETER FRANKENFELD

Deep rose pink, double well-formed blooms. Very dependable. Vigorous. Very fragrant. C.S.

CLG ROYAL GOLD ■

Deep golden yellow high-centred double flowers of good exhibition quality. Recurrent. Very fragrant. Pillar. N.C.

CLG SUPER STAR

Pure vermilion, double. One of the most brilliant climbers. Very fragrant. Recurrent. Vigorous. C.S.

CLG SUTTERS GOLD

Buds ruddy gold blooms yellow stained pink, semi-double, long buds, broad petals, long stems. Recurrent. Very fragrant. Vigorous. C.S.

CLG SWAN LAKE

White with a pink centre, rather upright in habit so best used on a pillar. Slight fragrance.

CLG SYMPATHIE

One of the strongest growing climbers. It should comfortably cover 5-6 metres. The superb dark velvety red blooms come in trusses and are up to 10cm across. It is also particularly fragrant.

CLG VIRGO

Pure white, semi-double, long pointed buds held erect on long stems. Vigorous. C.S.

CLG WOBURN ABBEY

Deep copper orange and yellow and nicely formed buds. Very fragrant. C.S.

SHRUB ROSES

Moss Roses, Old Fashioned Roses, And Other Curious Types Including Some Old Climbers Husky Two Year Plants

PRICE $10.40 EACH

(UNLESS OTHERWISE MARKED)

Most of these sorts can at winter pruning be shaped with the hedge shears, after tying the long semi-climbing canes down and around and on to the bush. The result will be large bushy plants giving a wonderful display, ideal for large country gardens. After several years of such treatment a heavy winter pruning leaving only a few strong young branches will rejuvenate the plant.

BUFF BEAUTY HYBRID MUSK 1939

Double flowers of a medium apricot shade the long canes are lax resulting in a spreading habit. Fragrant.

CLG CLOTH OF GOLD,

Yellow with a sulphur yellow reverse. Large globular blooms. Fragrant.

FORTUNES DOUBLE YELLOW 1845

A very early spring bloomer, the exquisite buds develop into buff-orange blooms up to 10cm across. Climber or Shrub.

GLOIRE DE MOUSSEUSES MOSS

Deep pink, very large and full (100 petals). Heavily mossed right to the tip of the sepals. One of the best.

JEAN DUCHER (Tea)

Globular flowers of soft salmon pink, changing to peach pink, vigorous, long flowering season. Very fragrant.

MME. ISAAC PERIERE (Bourbon) 1880

Huge flowers 12.5cm across very double blooms of a deep Magenta rose with a long flowering season. Very fragrant.

NEVADA HYB. MOYESSI

Flesh to creamy white with yellow stamens, single 10cm (4 inch). Recurrent. Almost thornless. Large shrub or Pillar. Fragrant.

NOZOMI **$10.95** ★

The uses for this beauty are numerous.

The very dainty single flat pearl pink flowers are most pleasing. The prostrate growth is covered in a glossy fine foliage. Plant atop a wall and allow the canes to hand over. Tie to a pillar or use as a ground cover, also makes an excellent weeping standard.

Also available on a 56cm Miniature Standard.

PINK GROOTENDORST RUGOSA

Deep shall pink. 4 cm (11\2inch) flowers of 30 serrated-edged petals, produced most freely in clusters. The flowers resemble carnations in their formation. Highly recommended. Recurrent.

REINE DES VIOLETTES HYB. PERPETUAL

Velvety violet, double, very fragrant. Recurrent.

SILVER MOON 1910

Treat as a Shrub or Climber. Large creamy white, barely double flowers, ideal for over old tree trunks etc. Very fragrant and very vigorous.

CLG SOUV. DE MALMAISON

Large double (often quartered) creamy blush flowers. Very fragrant.

SPARRIESHOOP

Pale pink, single, large, in clusters. Most attractive. Recurrent.

VIRIDIFLORA CHINENSIS

The Green Rose. One of the curiosities of the rose world. Buds bright green and open flowers, green slightly tinged with bronze. Free flowering. Hardy. Normal bush habit.

WHITE BATH MOSS

Pure white, large and double. Very heavily mossed. Very fragrant.

ASPARAGUS

PRICE $ 2.20 EACH
(Minium order 6 plants)

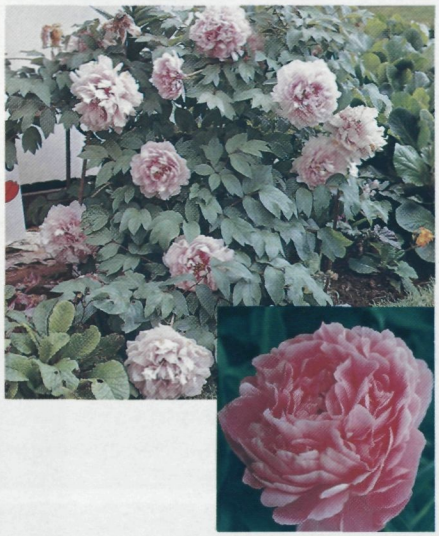
Probably not available until mid – June.

MARY WASHINGTON

Why not have this succulent delicacy fresh from your garden? 20-30 plants suggested for family of four. Cultural hints included with purchase.

For definition of patio classifications see page 3.

HERBACEOUS PAEONY ROSES & LILACS



These strong growing Herbaceous Perennials, (not of the Rosacea family) flower in late spring and early summer. Provide a sunny well drained position where they will not be disturbed, once established, they will produce large flowers of supurb effect for years to come.

BOWL OF BEAUTY 7.95
A stunning new variety, being pale pink with a yellow ruffled centre.

LADY BIRD 5.50
Semi double white.

MARGEURITE GERARD 5.50
A double pale pink.

DR. GREVEAUX 5.50
A particuarly vigerous scarlet.

MARIE LEMOINE 5.50
An early flowering double white occasionally having red edges on some petals.

LILACS

(SYRINGA)

PRICE $15.95 EACH
(Unless Otherwise Marked)
Probably not available until mid-June.

In this list we offer you a range of the modern Hybridised Lilacs. These two year-old shrubs are quite safely shipped bare root in same manner as the roses. For good performance from your lilacs be sure to give them a light dressing of lime each autumn and prune lightly.

BELLE DE NANCY
Deep mauve in bud opening to satin-pink with a slight tinge of blue, double. Small to medium shrub. Blooms mid-spring.

MADAME LEMOINE $16.60
Double white with medium size, very tight panicles. One of the best of the double whites. Compact and very free-flowering. Blooms mid-spring.

MISSIMO $16.60
This variety is outstanding due to the huge individual florets of 3.5cm diameter. The rich royal purple is perhaps the darkest of all. Medium shrub. Blooms mid-spring.

MRS EDWARD HARDING
A reddish-purple double with large semi-tight panicles. Probably the best of the dark doubles, a late lilac.

PRIMROSE
A soft single lemon colour, with just a suggestion of white. Small to medium shrub. An early bloomer.

SENSATION
A rich purple single, each petal is edged with white. The large semi-open panicles produce freely on a medium to tall shrub. Blooms mid-spring.

SWEETHEART $16.60
A very unusual lilac, that deserves to be better known. Double with deep dusty pink buds which open to a lovely pastel pink, making a striking contrast.

COULD THE ROOTS OF YOUR NEW ROSES BECOME TOO WET?

Due to the wetter than average 1989 winter, some gardeners, unfortunately suffered set backs to, or loss of a proportion of their June onwards plantings.

The soil types most at risk are the ones with a clay mixture and or with a clay level close to the surface 40cm or less.

Contrary to popular belief a good surface slope does not ensure good subsurface drainage. In fact my personal experience has, on some occasions, proved that the almost flat ground below a hillside has in fact had better subsurface drainage.

As many factors are involved it is therefore impractical to generalise, or for that matter be able to reach a conclusion with regard to a particular garden with exchange of information by phone or mail.

If, in your experience of previous winters in your garden, you feel that a wet winter could have the roots of newly planted roses in a waterlogged condition for periods of a week or more at a time, I offer this advice:-

Temporarily pot the plants. Transfer them to the garden when they have made 20-25cm of new growth. It is most important to allow the plants to establish lots of new root to hold the potting mix together when planting.

Plants treated this way will be equal to those planted directly into the garden, then subsequently having ideal soil moisture content for the winter months.

A suitable potting media is essential. (Garden soil alone, could be disastrous).

We can supply planter bags (much cheaper than pots), also provide more root space.

Out sterilised potting media (as used by us) can be supplied. One bag will do five of our planter bags or eight, 20cm pots, do not use smaller pots. Country and interstate customers purchase a soiless potting media and add one part of your garden soil to four parts of potting media. When potting trim roots to 10cm.

Whether making your own mix or using ours add one match box full of 8-9 month Osmocote to each pot about 6cm deep and repeat the Osmocote when planting in garden.

PRICES: Planter Bags 60 cents each (freight free with plants).

Sterilised Potting Mix (developed by us) @ $5.95 per 40 litre bag.

Please read Winter Despatch Of Plants, **page 20.**

For definition of patio classification see page 3.

COLOUR, FRAGRANCE & HEIGHT INDEX

Height Key T = Tall A = Average S = Short

The height any particular variety may grow to, is influenced by the condition in your own garden. Being:- Soil fertility, drainage, winter pruning, competition from neighbouring trees and shrubs, lawn, but most of all by shade from trees and buildings. So this only serves as a comparison between varieties when planted in your garden.

☆Varieties with fragrance ★ A greater degree of fragrance.

Note: Fragrance varies according to weather conditions and individual perception.

TERMS OF BUSINESS

WINTER DESPATCH OF PLANTS
Available from June 1st. Place orders early to avoid the possibility of some varieties booking out. As Australia Post now takes pacels larger than that which will fit in a mail bag. We will now, in most cases, be sending standard and weeping roses be post.

CLIENTS may call for plants weekdays.

For pre-order plants please phone prior to calling, to avoid delay.

8.am-5.00pm or 8.30am-4.30pm on Saturdays. June 1st to September 30th.

POTTED PLANTS
Available from 1st October onwards for callers. We are also able to deliver these to most suburbs, please enquire. **Prices in this catalogue do not apply to potted roses.**

PAYMENT
Payment with order by cheque or money order. Or include your Bankcard,Visa or Mastercard number. (Place provided on order form). We do not act on this until despatching your order.

OR we will send you a reminder at the onset of the despatch season. When payment is received, we will then despatch your plants during the season.

CALLING customers mark your order "CALL" and pay when collecting plants.

SUBSTITUTION
When ordering state if we may replace varieties sold out with others as good or better, and of the same colour, or add extra names from which selection can be made to replace those out of stock. This applies particularly to late orders.
WE DO NOT SUBSTITUTE UNLESS INSTRUCTED TO DO SO.

PRICES
Prices in this catalogue (which cancels all previous issues) do not include freight, cartage or postage on plants. Our prices are neither the lowest nor the highest in the profession, but we claim to have BEST VALUE available in spite of continued inflation. We reserve the right to vary prices should conditions warrant it. Note: Prices in this catalogue do not extend beyond September 30th, 1991.

Minimum order value of plants and or sundries to one address.
$10.00 (plus freight and packing as per back order form).

CONDITIONS OF SALE
We believe that all plants sold by us are of the description and kind specified at the time of sale. Where reasonable proof is given that the plants have been wrongly labelled we will refund the original purchase money or correct the mistake by new plants, but we give no warranty, express or implied as to their growth, description, quality or productiveness, and will not be in any way responsible for the crop as these factors are governed by forces beyond our control. All sales are made subject to these conditions, and if the purchaser does not accept the goods sold on these terms they are to be returned without delay.

For definition of patio classification see page 3.
